## HIGH PERFORMANCE PUMPS

- ✓ Fully Variable 3 Speed Pumps
- ✓ Digital RPM Display Interface
- ✓ 1.25HP and 1.75HP Variable Speed Motors
- ✓ Extra large leaf basket
- ✓ Up to 8 Star Energy Rating

PLT VARIABLE SPEED PUMPS

WATER & LIGHTING SOLUTIONS

[www.evolutionwls.com.au](http://www.evolutionwls.com.au)

The Evoflow Platinum V3 PRO and Platinum V5 PRO variable 3 speed pumps provide complete control to the pool owner with each speed fully adjustable to suit individual pools. Additionally the pump features a heavy duty extra large leaf basket, and can be plumbed with 50mm or 65mm pipe.

### The Evoflow PLT VS Advantage

Evolution's Evoflow Platinum V3 PRO & Platinum V5 PRO pumps have been specifically developed for applications where a larger capacity pump and leaf basket may be required. Additionally the pumps enable pool owners to run them in the most efficient way, so as to dramatically decrease electricity costs and carbon emissions.

Unlike conventional single speed pumps that work at maximum capacity, the PLT V3 PRO & PLT V5 PRO utilise a permanent magnet brushless fully variable 3 speed DC motor. This revolutionary motor allows the owner to increase and decrease each of the 3 speeds to suit their pool and spa needs.

Whether you need to backwash, clean / vacuum or filter your pool or spa water, the PLT V3 PRO will save you time and money. The PLT V5 PRO has the same energy efficiency, however achieves superior levels of performance being a 1.75HP motor. This suits spa jet action and most in-floor cleaning setups.

Pool filtration takes up 99% of a pump's usage during the year, however pool filtration does not require a pump to be running at full capacity. In fact pool filtration improves at lower flow rates, as more foreign particles are trapped in the filter.

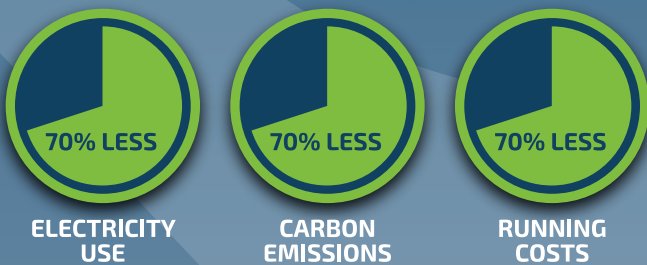

The PLT V3 PRO / PLT V5 PRO operate at extremely low noise levels that allow you to run the pump at night to take advantage of off-peak tariffs without disturbing neighbours.

Additionally the PLT V3 PRO / PLT V5 PRO use one of the most reliable and durable pump housings and internals available. The pumps are manufactured and assembled in Australia using the highest quality parts and materials.

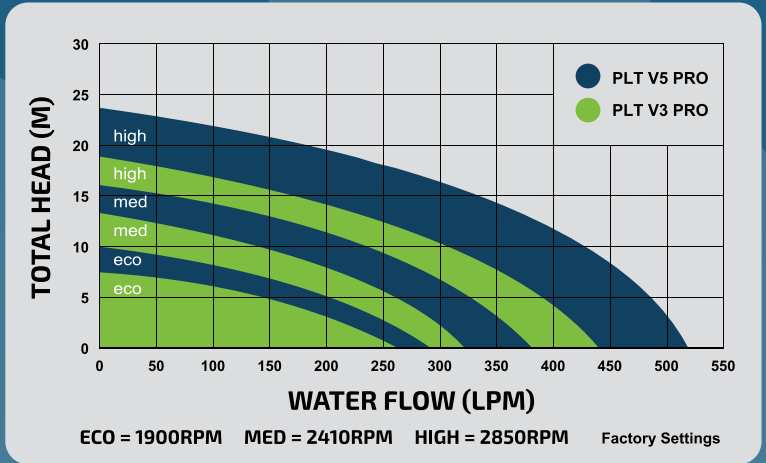

### Warranty

- 3 year limited warranty.
- 12 months for commercial installations.
