Section 1 – Identification of the Material and Supplier

Product Name: Evopure 3 in 1 Scale inhibitor, Metal Magnet, Stain Remover

Product Use: A multipurpose pool maintenance product that works as a scale inhibitor, metal

magnet and stain remover.

Creation Date: 1/01/2018

This version issued: 1/01/2018 and is valid for 5 years from this date.

Details of Manufacturer:

Evolution Water & Lighting Solutions Pty Ltd 1/33 Hinkler Drive, Highland Park QLD 4211

Phone: +61 7 5565 0000 Fax: +61 7 5565 0010

Email: enquiries@evolutionwls.com.au

Emergency Telephone Number: 000

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Section 2 - Hazards Identification

Hazard Classification of Substance

Classified as hazardous according to criteria of SAFEWORK Australia.

Not classified as dangerous according to criteria of ADG.

SUSMP Classification: 5 CAUTION

GHS Hazard Category: Acute toxicity Cat 4

Eye Irritation Cat 2

GHS Signal word: WARNING

HAZARD STATEMENTS:

H302 Harmful if swallowed

H319 Causes serious eye irritation

GENERAL

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

PREVENTION

P264 - Wash hands thoroughly after handling.

P270 - Do not eat, drink or smoke when using this product.

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

P362+364 - Take off contaminated clothing and wash it before reuse.

RESPONSE

P301+312 - IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. P330 - Rinse mouth. P302+352 - IF ON SKIN: Wash with plenty of soap and water.

P332+313 - If skin irritation occurs, get medical advice/attention.

P305+351+338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+313 - If eye irritation persists, get medical advice/attention.

STORAGE

P403+P233 Store in a well-ventilated place. Keep container tightly closed.

DISPOSAL

P501 Dispose of contents/container in accordance with all federal, state and local regulations.

Product: Evopure 3 in 1 Issue: 1/01/2018

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Section 3 – Composition/Information on Ingredients

Ingredients

Chemical Entity	CAS Number	Proportion	GHS Classification
Phosphonic acid, (1-	2809-21-4	10-30%	H302; H319
hydroxyethylidene) bis-			
Sodium Hydroxide	1310-73-2	5-10%	H314; H290
1-2 benzisothiazol-3(2H)-one	2634-33-5	<0.02%	H 315

If the sum of ingredients is less than 100%, the material consists of further ingredients determined not to be hazardous or below their cut-off limits as listed in HSIS.

Section 4 - First Aid Measures

For advice, contact a Poisons Information Centre (e.g. phone Australia 131 126; New Zealand 0800 764 766) or a doctor

Ingestion: If swallowed, do NOT induce vomiting. Give glass of water. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Eye Contact: If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

Skin Contact: Remove contaminated clothing and wash before re-use. Wash effected areas with water initially, then soap and water. Seek medical advice if irritation persists.

Inhalation: Remove victim to ventilated area without becoming a casualty. If not breathing, give artificial respiration. Consult a physician.

Medical attention or special treatment required:

Advice to Doctor: Treat symptomatically

Section 5 - Fire Fighting Measures

Suitable Extinguishing Media: Non combustible product. Use extinguishing agent suitable for type of surrounding fire.

Hazards from Combustion Productions: Not flammable Combustion will release toxic gasses (COx & POX).

Special Protective Precautions & Equipment for Fire Fighters: Not combustible, however following evaporation of the water component of the material, the residual material may decompose. On burning will emit toxic fumes. Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of decomposition (COx & POX) evolved. If safe to do so, remove containers from path of fire

Section 6 - Accidental Release Measures

Emergency Procedures / Environmental Precautions: Avoid skin and eye contact, skin contamination and breathing in vapour.

Personal Precautions / Protective Equipment / Methods & Materials for Containment & Cleaning Up: Store in a cool, dry, well ventilated place and out of direct sunlight. Store away from sources of heat or ignition. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for leaks.

Product: Evopure 3 in 1 Issue: 1/01/2018

Page 3 of 6

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Section 7 - Handling and Storage

Precautions for Safe Handling: Irritant liquid. Ensure an eye bath and safety shower are available and ready for use. Use only in a well-ventilated area. Prevent the build-up of mists in the work atmosphere. Avoid inhalation of mists, and skin or eye contact. Wear appropriate protective equipment to prevent inhalation, skin and eye contact when mixing and using. Ensure a high level of personal hygiene is maintained when using this product, that is, always wash hands before eating, drinking, smoking or using the toilet. Keep containers sealed when not in use.

Conditions for Safe Storage: Store in a cool, dry, well ventilated place and out of direct sunlight. Protect from moisture. Do not store with foodstuffs. Store away from incompatible materials described in Section 10. Keep containers closed when not in use - check regularly for spills.

Section 8 – Exposure Controls and Personal Protection

Control Parameters: Not determined for this product.

Appropriate Engineering Controls: Ensure ventilation is adequate and that air concentrations of components are controlled below quoted Workplace Exposure Standards. Avoid generating and breathing in dusts. Use with local exhaust ventilation or while wearing dust mask. Keep containers closed when not in use.

Individual Protection Measures, Such as Personal Protective Equipment (PPE): The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

OVERALLS, SAFETY SHOES, CHEMICAL GOGGLES, GLOVES

Wear overalls, chemical goggles and impervious gloves. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. If determined by a risk assessment an inhalation risk exists, wear a suitable mist respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.

Section 9 - Physical and Chemical Properties

Appearance: Clear, blue mobile fluid, soluble in water.

Flammability: Product is NOT flammable.

Melting Point: Boiling Point: 100°C Flash Point: Unknown. **Vapour Pressure:** Unknown. Volatiles: Not stated. **Vapour Density:** Unknown. pH as Supplied 3.5-5.5 **Specific Gravity:** 1.00-1.15 Solubility in water: Soluble

Section 10 - Stability and Reactivity

Chemical Stability: Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

Conditions to Avoid: Avoid exposure to heat, sources of ignition, and open flame.

Product: Evopure 3 in 1 Issue: 1/01/2018

Page 4 of 6

Poisons Information Centre: 131 126 in Australia, 0800 764 766 in New Zealand

Incompatible Materials: Oxidising agents (Class 5).

Hazardous Decomposition Products: Upon combustion oxides of carbon (COX) and phosphorous (POX).

Hazardous Reactions: No dangerous reaction known under conditions of normal use.

Section 11 – Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Symptoms of Exposure:

Ingestion: Irritating to all tissues, due to lower pH. Very low toxicity. Very unlikely sufficient will be ingested to cause any permanent damage, although may cause nausea and abdominal pain.

Eve Contact: Irritating to eyes, Will cause temporary discomfort. No permanent damage likely.

Skin Contact: Product has very low dermal toxicity and is not primary irritant or skin sensitizer. Irritation may be due

Inhalation: Not a likely exposure route.

Acute toxicity: ATE _{MIX} : >6000	Not expected to be toxic
mg/kg;	
Skin corrosion/irritation:	May be an irritant.
Serious eye damage/irritation:	May be an irritant.
Respiratory or skin	Not expected to be a sensitiser.
sensitisation:	
Germ cell mutagenicity:	Not expected to be mutagenic.
Carcinogenicity:	IARC: No component of this product present at levels
	greater than or equal to 0.1% is identified as probable,
	possible or confirmed human carcinogen by IARC.
Reproductive toxicity:	Not expected to impair fertility.
Specific Target Organ Toxicity	Mists may be an irritant.
(STOT) – single exposure:	
Specific Target Organ Toxicity	No data
(STOT) – repeated exposure:	
Aspiration hazard:	Not expected to be a hazard.

Section 12 – Ecological Information

Ecotoxicity: May cause long-term adverse effects in the aquatic environment.

Persistence and Degradability: Expected to be degradable.

Mobility: Water soluble and mobile in soil.

Bioaccumulative Potential: LOW: Bioaccumulation As expected for highly water-soluble substances, the log Kow values for phosphonates are low (ATMP: -3.53; HEDP: -3.49; EDTMP: -4.10; HDTMP: -4.43; DTMP: -3.40). The potential for bioaccumulation of phosphonates in aquatic organisms is therefore expected to be low as well.

Section 13 – Disposal Considerations

Disposal Methods and Containers: Refer to State Land Waste Management Authority. Empty containers must be decontaminated. Normally suitable for disposal at approved land waste site.

Product: Evopure 3 in 1 Issue: 1/01/2018

Section 14 – Transport Information

Road and Rail Transport: Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods

Code (ADG Code) for Transport by Road and Rail; NON-DANGEROUS GOODS.

UN Number:
Transport Hazard Class/s:
Packing Group:
UN Proper Shipping Name:
Hazchem Code:
IERG Number:
Not applicable.
Not applicable.
Not applicable.
Not applicable.
Not applicable.

Marine Transport: Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.

Air Transport: Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.

Section 15 – Regulatory Information

Classification: Classified as hazardous according to criteria of SAFEWORK Australia.

Classification of the Substance or Mixture:

Acute toxicity Cat 4 Eye Irritation Cat 2

Hazard Statement(s):

H302 Harmful if swallowed

H319 Causes serious eye irritation

Poisons Schedule (SUSMP): 5 CAUTION

AICS: All ingredients are on the Australian Inventory of Chemical Substances.

Section 16 - Other Information

This SDS contains only safety-related information. For other data see product literature.

IMDG International Maritime Dangerous Goods. A uniform code for transport of dangerous goods at

sea.

LEL lower flammable (explosive) limits in air;

LD₅₀ Lethal Dose sufficient to kill 50% of test population

NIOSH National Institute for Occupational Safety and Health The United States federal agency

responsible for conducting research and making recommendations for the prevention of work-

related injury and illness.

NOAEL No Observed Adverse Effect Level

NOEL No Observable Effect Level

NOHSC National Occupational Health and Safety Commission

NTP National Toxicology Program (USA)

PEL Permissible Exposure Limit

RTECS Registry of Toxic Effects of Chemical Substances (Symyx Technologies')

TCLO Toxic Concentration Low

TDLO Toxic Dose Low: lowest dosage per unit of bodyweight (typically stated in milligrams per

kilogram) of a substance known to have produced signs of toxicity in a particular animal

species.

TLV Threshold Limit Value (ACGIH):The time weighted average used to describe exposure which

is harmless to most of the population when exposed 8 hours per day, 40 hours per week.

TWA (Time Weighted Average): The average airborne concentration of a particular substance

when calculated over a normal eight-hour working day, for a five-day week.

These exposure standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. These exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

SAFEWORK Independent statutory agency with primary responsibility to improve occupational health and

safety and workers' compensation arrangements across Australia.

STEL (Short Term Exposure Limit): The average airborne concentration over a 15 minute period

which should not be exceeded at any time during a normal eight-hour workday.
